Chain Shield

The proven clutch-and-chain roller shade

STANDARD ON EVERY CBM ROLLER SHADE

CLOSE-UP

Finished clutch end and chain shield, in white or black

12″–120″	120″	Clutch drive
Finished width	Maximum height	Designed and built by CBM

Standard on every CBM roller shade: a smooth, precise clutch operated by a continuous bead chain held captive in a rigid shield. Dependable on the widest and tallest windows, and at home in every CBM housing.

01 Features

- ✓ **Precise positioning.** The CBM clutch, designed and built in-house, stops exactly where you leave it.
- ✓ **Chain held captive.** The rigid shield keeps the continuous loop enclosed.
- ✓ **White or black.** Clutch, chain and shield in a matching white or black.
- ✓ **Your choice of chain.** #10 bead chain in white or black plastic, or metal.
- ✓ **Fine fabric alignment.** Taped fabric can be trued sideways without removing the tube.
- ✓ **Retrofit-ready.** The shield also fits existing CBM clutch shades.

02 At a glance

Size note	Maximum capacity also varies by fabric
Operation	Continuous bead chain on a clutch, left or right
Roller tube	1-1/2″ [38 mm]; 2″ [51 mm] and up
Mounting	Steel brackets: inside, wall or ceiling
Handles	Not needed: the chain does the work
Housings	Every CBM housing: open roll, groover valance, 3″, 4″ and 5″ fascia, C100, S90, square cassette and E90
Documents	SD-RS-OR · housing installation guides

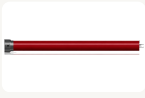

03 Options

Bead chain
White plastic, black plastic or metal.

Bottom bars
Oval and C20, white, anodized or black.

Prefer motorization?
Every CBM housing takes CBM motors.
