ROLLER SHADES · PRODUCT BROCHURE

Cordless RS

CBM's premier cordless roller shade

12″–102″	100″	5,000 cycles
Finished width	Maximum height	Spring tested

Designed by CBM, Cordless RS is a zero-gravity spring system that balances the shade at every height. Guide the bottom bar with a light touch and it stays exactly where you leave it, with no cords or chains.

01 Features

- ✓ **Light-touch operation.** A balanced, zero-gravity spring holds the shade at any height.
- ✓ **Factory pre-tensioned.** Fine-tunes at the end cap with a coin, a quarter turn at a time.
- ✓ **Narrowest light gaps.** Just 5/16″ at each end on open roll, the tightest in the CBM range.
- ✓ **Clean mounting rail.** Clicks into its brackets; a rear tab releases it, tension intact.
- ✓ **Nothing at the window.** No cords or chains: just fabric, bottom bar and a discreet handle.
- ✓ **Magnetic handle option.** Pairs with a telescopic pole for tall windows.

02 At a glance

Size note	Under 24″ wide: up to 72″ high
