True View Solar Screens

1% · 3% · 5% · TV Blackout

1% · 3% · 5%	Up to 98%	Up to 78%
Three openness factors	Visible light blocked	Solar energy reflected

Premium solar screens engineered for clarity: the same glare and heat control you expect from a screen, with a noticeably clearer view out. Pair them with TV Blackout for a coordinated look from room to room.

01 See the difference

Same window, same 3% openness, photographed side by side.

True View 3% (left) beside a standard 3% screen

- **A clearer view.** A crisp 2×2 basketweave keeps the outlook sharper than a standard screen of the same openness.
- **Bright, not dim.** A bright white finish keeps rooms light while it shades.
- **Glare under control.** Blocks up to 98% of visible light, taming glare on screens and work surfaces.
- **Cooler rooms.** Reflects up to 78% of solar energy, cutting heat gain and cooling load.
- **Healthy interiors.** GREENGUARD Gold and OEKO-TEX certified, with antimicrobial protection.
- **Ready to specify.** NFPA 701 and CAN/ULC-S109 for commercial and public buildings.

02 Colours

Four colours in every openness, with codes as ordered.

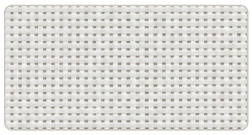

True View 1%

Glare control

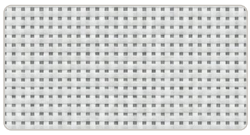

The tightest weave, for the strongest glare and heat control.

- ✓ **No backing** on the reverse, so it hangs flatter than a traditional blackout.
- ✓ **Weldable and printable** for wide shades and custom designs.

TV Blackout installed

04 Common to the series

Composition	78% PVC / 22% polyester (TV Blackout 75% / 25%)
Roll width	118″ [300 cm]
Fire	NFPA 701 TM#1 · CAN/ULC-S109
Health	GREENGUARD Gold · OEKO-TEX Standard 100
Antimicrobial	ASTM G21 (grade 0) · ASTM E2180

05 Choosing the right screen

- ✓ **Lower openness** adds privacy and glare control; higher openness opens the view.
- ✓ **White Black** gives the clearest view out; whites keep the room brightest.
- ✓ **Screens show silhouettes at night** with lights on: pair with TV Blackout where privacy matters.
- ✓ **Order samples** before you specify: on-screen swatches are indicative only.

Values are nominal and can vary by dye lot. Samples and test reports: sales@cblind.ca.
